WHAT IS SCHOOL VIOLENCE?

- Bullying and cyberbullying
- Fighting (e.g., punching, slapping, kicking)
- Weapon use
- Gang violence
- Sexual violence

HOW BIG OF A PROBLEM IS IT

In 2019, CDC's nationwide Youth Risk Behavior Survey (YRBS) was administered to high school students across the United States. According to YRBS results from 13, 677 students:

- About 1 in 5 high school students reported being bullied on school property in the last year.
- 8% of high school students had been in a physical fight on school property one or more times during the 12 months before the survey.
- More than 7% of high school students had been threatened or injured with a weapon (for example, a gun, knife, or club) on school property one or more times during the 12 months before the survey.
- Almost 9% of high school students had not gone to school at least 1 day during the 30 days before the survey because they felt they would be unsafe at school or on their way to or from school.
