

SUMMER SAFETY

Crimestoppers has enjoyed giving useful information to students and families. Please visit our website for any updates from our organization. Below, you will find Summer Safety Tips that will help you, friends, and family to Stay Safe!

Louisiana summers are ALWAYS hot. Make sure to do the following:

- Drink plenty of water.
- Wear protective gear such as hats, sunscreen, glasses, etc.
- Avoid direct sunlight between 11a.m.—3p.m. when it is the hottest.

Safety reaches far beyond summer heat. While exploring this summer remember to do the following:

- **Never** explore alone always have a friend, group of friends, or trusted adult with you.
- **Never** give out personal information or inappropriate information about you or family members online.
- If you ever feel unsafe or uncomfortable tell a trusted adult as soon as possible.

I SPY WITH MY LITTLE

How to play I Spy?

- You need 2 or more people.
- You should “spy” an item that is currently in plain view **NOT** something that has passed and no longer visible.
- Use descriptive words for example: I spy something red, tall, square, etc.
- Have the others guess what the item, person, or thing maybe “ Is it a ball, chair, tv, etc.?”
- Leader can only answer yes or no.
- The person who has guessed what the leader has in mind has won the game and now becomes the leader.

An example round:

Leader: I spy something square.

Player 1: Is it the carpet?

Leader: No.

Player 2: Is it the T.V.

Leader: Yes.

Now, Player 2 becomes the leader
